

THE PULSE OF AMERICAN SECURITY

BEATS IN THE HEARTLAND.

CREDITS AND CERTIFICATION

Upon successful completion of the course, students will receive 3 hours of college credit from NCK Tech and industry certification from KIOGA, both of which can be submitted for preferred hiring into entry-level oilfield employment.

Introduction to the Oilfield was created and is led by North Central Kansas Technical College (NCK Tech). This innovative new program is also supported by Berexco LLC, Kansas Independent Oil and Gas Associate (KIOGA), and Kansas Strong.

KANSAS STRONG®

PROMOTING THE QUALITY OF LIFE CREATED BY
THE KANSAS OIL AND GAS INDUSTRY.

OILFIELD TRAINING CLASS

Labor shortages have been felt throughout the Kansas oil and natural gas industry. In particular, the number of qualified and talented entry-level applicants is shrinking. Selecting and retaining the best employees is becoming essential.

In an effort to promote jobs and careers in the Kansas oil and natural gas industry, we're pleased to announce the continuation of a certified program titled, "Introduction to the Oilfield."

INTRODUCTION TO THE OILFIELD

Designed for entry level employment seekers, this 8-week / 56-hour course provides:

- First-hand insight into the industry
- Field trips hosted by our members
- Industry designed online training
- Basic industry skills and knowledge
- Scholarships for select students

UPCOMING CLASSES

Our goal is to offer the class three times per year. Please visit: www.ncktc.edu and click on the "Programs" tab.

ENERGY FROM THE HEARTLAND. STRENGTH FOR OUR NATION.
